

AT-RISK STUDENTS
(KB8 Districts)

The goal of the Miami R-I Elem. School District is to ensure that all high school graduates are college- or career-ready. In furtherance of that goal, the superintendent or designee will implement programs designed to identify students who are not performing to their potential and assist those students in graduating with their peers with the skills and knowledge necessary to be successful in college or a career upon graduation.

The superintendent or designee is authorized to create and implement programs designed to assist students of any grade level who appear to be at risk of dropping out of school or failing to graduate from high school college- or career-ready.

Students Leaving School Prior to Graduation

Students 16 years of age or older who leave school for any reason other than to attend another school, college or university or enlist in the armed services will be reported to the state literacy hotline at the Department of Elementary and Secondary Education, as required by law. In addition, students who drop out of school will be offered follow-up counseling and services to facilitate their return to school or the completion of their education.
