

Dear Students and Families,

Welcome to Miami R-1 School! We hope each of you have enjoyed your summer and are looking forward to starting an exciting school year. The mission of Miami R-1 Township School District is to encourage students to seek lifelong learning and display respect for themselves and others. Teachers come here every day to teach, and you must come to learn. We also support the idea of you building friendships, being involved in extracurricular activities, and expect you to demonstrate good character. Miami R-1 is not just a building, we are a community of learners. We will be learning from you how you learn best, which will help us to help you!

Here are five guidelines that can help you become successful at school:

1. Attend school daily and study when you are here.
2. Be prepared and on time for classes.
3. Follow all of the rules.
4. Show respect towards yourself, your peers, adults, and your school.
5. Use manners at all times.

The student handbook is a vital part of our school information system. This handbook can help answer many of your questions. It will not contain every specific rule or regulation, but it does have all major policies and much general information to help students and their parents better understand our school. The intent of the policies in the handbook is to maintain a school environment that is safe, friendly, and one that provides the best possible learning atmosphere for students. Attached to the back of this handbook is a sheet that is to be returned to school after you and your parents have become familiar with the policies in the handbook.

The staff and I will be your biggest supporters in all that you do and we wish you a very successful school year!

Respectfully,

Mr. Reiner
Principal/Superintendent

Miami R-1 Township School District

Vision Statement

The Miami R-1 Township School District is guided by the desire to use the resources of its community, its staff and its students to provide the highest quality education permitted by its financial resources. In reaching decisions, the Board will make decisions with the best interest of students in mind by developing policies, guidelines, and programs that motivate students to seek life-long learning that models respect for others, and that encourages community participation.

Mission Statement

The mission of the Miami R-1 Township School District is to encourage students to seek lifelong learning and display respect for themselves and others.

Educational Values of the Professional Staff

- To promote the Mission of the Miami R-1 School.
- To fulfill the Teacher Expectations as set forth by Board Policy.
 - The Board of Education encourages employees to contribute their ideas for the betterment of the school district.

Miami R-1 School Mission Statement

The mission of the Miami R-1 School is to encourage students to seek lifelong learning and display respect for themselves and others.

The Board of Education reaffirms its belief that every student regardless of race, creed, color, sex, cultural, socio-economic status or disabling condition be given equal opportunity for educational development.

The Board recognizes the importance of providing each student with a school environment conducive to intellectual, emotional and social growth through participation in a full range of educational programs and activities. Board and staff commitment ensure equal educational opportunities in course offerings, guidance, counseling, test procedures, extracurricular activities, discipline procedures and student support services.

Attendance

The Board of Education believes that regular attendance is essential to achieving success in school. Education is a total process based upon continual communication and shared responsibilities among parents, students, teachers and school. As students mature and progress through the educational system, they should increasingly assume responsibility for regular attendance. However, parents have a legal and moral responsibility to require regular attendance at school.

Regular attendance and participation in classroom instructional activities are essential to achieving the educational objectives for each class. When students are absent from class, they miss the material covered; they miss the opportunity to interact with the teacher as well as other students; and they miss the opportunity to pursue learning opportunities only available in the classroom interaction.

The Board of Education has established the following rules and regulations regarding attendance, absences and excuses for students. These rules and regulations are intended to comply with Missouri Compulsory Attendance Law (167.031 RSMo.) which establishes compulsory attendance for all children between the ages of seven and sixteen unless their education is provided by other acceptable means or otherwise excusable under the law.

Excusable Absences

In case of absence, it is the responsibility of the parent/guardian to notify the school. The absence will be recorded as **unexcused** if a note or telephone call is not received on the day of absence.

Excusable absences include, but are not limited to:

1. Illness of the student
2. Days of religious observance.
3. Death in the family.
4. Family emergencies, which necessitate absence from school. The school must be notified in advance when such absences are foreseen.

Students who are absent should follow the following procedures to prevent academic difficulties:

1. The student shall obtain assignments from appropriate staff members. Assignments shall be obtained in advance if the absence is foreseen.
2. All assigned work shall be submitted upon returning to school (1 day will be allowed upon return for each academic day missed when the absence was unforeseen). Once that day has passed, if the student has not submitted their work the late work policy will be followed.
3. All classroom work (to include tests) shall be completed as indicated by the individual classroom teacher.

Unexcused Absences

Attendance patterns for all students will be monitored. The principal will investigate absences which are not clearly excusable, and appropriate action will be taken.

Excessive Absences

Excessive absences, excused or unexcused, have a detrimental effect upon academic progress and may be one factor considered in promotion/retention decisions. **You will receive a letter after your child has missed 8 days throughout the semester.**

Late Student Arrival (Tardy) and Early Dismissal

1. **Late check in-** Students who arrive after 7:45 a.m. are late to school and must report to the office. Students must enter through northeast doors by the library with a parent or guardian. The parent or guardian must provide a signature for the student's late arrival. Late arrivals count towards students' total attendance.
2. **Check out-** Students who must leave school before the 3:40 p.m. dismissal will be called to the office when their parent/guardian arrives at the school to pick them up. Students cannot wait outside for rides or be dismissed from school property without parent/guardian supervision. The individual must be able to provide proof of identification before picking up a student. (MSBA Policy JEDB)

Parents/guardians have the obligation to advise and provide up-to-date documentation to the building principal regarding any change in the legal and/or physical custody of the student. The building principal, at all times, has the authority to investigate and confirm the custodial status of a parent/guardian if the principal has inadequate information or reason to suspect that false or incomplete information has been provided to the School District.

Phone Calls

1. Students shall not be permitted to receive personal phone calls except in case of emergencies when called by a parent/guardian.
2. Students shall be allowed to call a parent/guardian when permission has been granted by principal.

Parent Visitation & Volunteers

Parents are encouraged to visit their child's classroom; however, when planning a visitation, please check with the teacher, prior to the visit, in order to avoid any conflicts. Observations by visitors, groups, parents and other individuals must be approved by the superintendent/principal. For the protection of the students, if you need to give your child a message, medication, homework, lunch money, supplies, etc., all visitors, including parents, should report to the office upon entering and leaving the building. Please do not go directly to the classroom.

Interrupting class hampers valuable instruction time.

Special Request/Permission to Go Home with a Friend

If a student is to ride another bus home in place of his or her own or exit the bus at another stop with a friend, he/she must bring a note from both parties. Plans should be made ahead of time with the teacher and school secretary.

Students on field trips are to be well behaved. All district discipline policies apply to field trips. Signed permission slips for field trips from the parent/guardian should be on file in the office prior to the trip. Students not having the permission slip returned will not be able to attend. All parents will be notified with substantial time prior to each individual field trip for pre-planning purposes.

Academic Policy for Participation in Student Activities

- A student will be declared academically ineligible to participate in or practice for any extra-curricular activity if the student:
 - Has an F grade in any subject at quarter grade time.
 - Has two D grades at quarter grade time.
- No change can be made in a grade after it is issued unless an error in computing the grade has been made. If a student is declared ineligible at any grading period, they will remain ineligible for two weeks. At that time, their grade will be refigured. If they are still ineligible they will remain ineligible until the next grading period (mid-term or quarter).
- Students with an IEP will follow the accommodations in that document.
- 8th grade students must meet eligibility requirements, as mentioned above, in order to participate in the 8th grade trip.

Promotion and Retention

The purpose of promotion and retention is to provide maximum consideration for the long-range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities. Students will be promoted to the next grade level if they are meeting grade level expectations as identified by Local and State Department of Education core subject objectives.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work; however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

There are state-mandated remediation and retention requirements for students in third grade, fourth grade, fifth and sixth grades who fall below certain reading requirements. These requirements require a reading improvement plan and hours of supplemental instruction outside of the regular classroom instruction hours and/or retention.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the close of school.

After School Activities

A variety of activities will be offered to meet the needs of students. Students must have written permission from the parent or guardian to participate.

- Students must exhibit responsible behavior before, during and after all after school activities. All handbook policies must be followed. A spirit of good sportsmanship must be followed.
- Extra-curricular activities are a privilege of the students of the district and at any time can be revoked based on the discretion of the administration and board of education.
- Patrons can be asked to vacate the premises if their behavior does not demonstrate positive behavior.

After School Tutoring

This program will commence at the discretion of the teacher providing the tutoring. Arrangements with the parents will be made by the teacher in order to set tutoring and pick up times.

Basketball Participation

Basketball Team Participation

- “A” team for Boys and Girls will be limited to the 4th through the 8th grades.
- “B” team will be limited to the 3rd through 6th grades.
- “A” team ball will be played during October, November, and December.
Practice will begin in late September, early October. A calendar will be sent home to all participants showing practice times and games.
- “B” team ball will be during the month of February with practice beginning in January.

****Depending on numbers, administration reserves the right to include lower grade levels.**

- Team members must have a physical examination form completed and returned to the school office prior to joining practices or games.
- Team members are expected to be at every practice. If a student must miss, the parent must provide a note for the coach. Remember, your teammates are counting on you. Commitment is important. Consistent unexcused missed practices will affect playing time.
- Students who are absent from school more than ½ day (3.5 hours) will not be able to practice or play in a game that day. Absence because of a funeral or other excused, prearranged absences may be exempt.
- Students who receive in-school suspension may not participate in practice or games until the day following the last suspension day has been completed. (Example: If a student has in-school suspension on Wednesday, he/she could return to practice on Thursday.)
- Students must be academically eligible to participate.
- Students must follow all rules set forth by the coach. Playing is a privilege, not a right.

****Parents must provide or arrange for the transportation to all practices and games for their students.****

Student Lunch

All students will remain at school during lunch period. Hot lunches will be served to all students who desire them. Some students may desire to bring lunch, if so, they will sit in the cafeteria with their class. For health and safety reasons, the sharing of food from the school lunches or food carried from home is not allowed.

Make sure your child’s lunch is adequately prepared. Students will not have access to microwaves or refrigerators. Students should be able to independently eat their lunch.

The school district is participating in the Provision 2 Federal Grant Program. This is where **all** students are eligible to receive breakfast and lunch for free! Extra milk is available for \$0.25 for everyone.

The numbers that qualify for these programs drive the funding for some of the federal programs and grants that serve the academic needs of your children.

Student Safety

Generally, there are two types of emergencies that could necessitate the closing of school. They are snowstorms and tornadoes or severe weather activity. Notice of closing will be broadcast over **KMMO Radio (1300 AM, 102.9 FM)**, **District FaceBook Page (<https://www.facebook.com/miamimustangs>)**, and **Text Caster**. (Please go to district website to sign up for Mustang Alerts at www.miami-mustangs.com)

During the school year, we prepare the children for emergency situations by practicing fire, tornado and intruder drills. We feel, as a school, we have procedures that will keep us as safe as possible if we happen to experience any of the disasters mentioned. To help keep calm and organized in an emergency situation, we ask that you follow these guidelines.

Parents or legal guardians only will be allowed to take the children from school only after an all clear has been declared by the proper authorities. (**This means we will not allow a child to leave with a neighbor, friend, or sitter**).

1. Please do not call the school! (If we do have a line working, we may need that to call for assistance).
2. If buses are running after the all clear and your child normally rides the bus, your child will be placed on the appropriate bus and sent home.
3. All teachers and staff will remain with students until they have been picked up.

Please help us by following these simple rules in an emergency. Children usually stay relatively calm in these situations because we have prepared them well. Rest assured that all children will be taken care of until they can safely be released to you the parents.

Student Discipline

Student Code of Discipline

It is the commitment of the Miami R-1 Board of Education to create and maintain a school environment that allows our students to attain the best education possible. To discharge this function effectively and equitably, school authorities and parents must ensure an environment in the school which is conducive to the learning process. The discipline code is the tool used by the school to prepare students for their responsibilities as adults in a democratic society. The quality of discipline in the school is a blend of values, attitudes and expectations by students, parents, teachers, school administrators and Board members. To accomplish this goal, there must be respect and mutual trust among parents, teachers and students. Therefore, the discipline code strives to facilitate the development of the student's self-control and self-discipline. In this regard, the student discipline code becomes an integral component of the educational process and a symbol of the commitment of parents, students and administrators to the maintenance of an effective learning environment. It is the right, responsibility and duty of every certified and non-certified member of the Miami R-1 School staff to administer the discipline code. Students should be cognizant that non-certified staff has support of the local board and administration in handling discipline..

This discipline code is built upon state statute laws and the values held by the community. If the students will remember the one rule **"Be kind, respectful and considerate to everyone they encounter"** they should experience few difficulties with other students or teachers. Students who interrupt the learning environment for themselves and others will begin to regain self-control through thinking time and developing a plan to re-enter the learning process.

The discipline code set out in this regulation is intended to be illustrative but not an exclusive listing of acts of misconduct and the consequences for each. Misconduct, which is not specifically listed in this regulation, may be deemed to warrant discipline up to and including expulsion following provision of all due process procedures. In addition, the disciplinary consequence listed for each offense may be increased or decreased by the Administration or the Board of Education due to mitigating or aggravating circumstances.

Copies of this regulation as well as the District's corporal punishment policy will be provided to each student at the beginning of each school year. Copies of these documents will also be available for public inspection during normal business hours in the Superintendent's office.

In Missouri, a principal may suspend a student for up to ten (10) school days. A superintendent may suspend a student for up to 180 school days. Procedures are outlined below.

1. Before suspending a student, a principal or superintendent must (a) tell the student, either orally or in writing, what misconduct he or she is accused of; (b) if the student denies the accusation, explain, either orally or in writing the facts that form the basis of the proposed suspension; and give the

- student an opportunity to present his or her version of the incident.
2. If the principal or superintendent concludes that the student has engaged in misconduct punishable by suspension, the procedures described below apply unless the student is disabled. (If the student is disabled, the procedures described in the policy dealing with the discipline of disabled children apply.)
 3. The principal or superintendent should determine whether the student should be suspended or whether less drastic alternative measures would be appropriate. In many cases, the principal or superintendent may decide not to suspend a student unless conferences (between the teacher, student and principal and/or between the parent, student and principal) have been held and have failed to change the student's behavior.

NOTE: If suspension is imposed, the student's parents or guardians must be promptly notified of the suspension and the reasons for the action.

If a student is suspended from school for more than ten school days, the following rules apply:

1. The student, his or her parents, guardians or others having custodial care have a right to appeal the Administrator's decision to the Board or a committee of the Board appointed by the Board president.
2. If the parent gives notice of appealing the suspension to the Board, the suspension shall be stayed until the Board renders its decision unless, in the administrator's judgment, the student's presence presents a continuing danger to persons or property or an ongoing threat of disrupting the academic process.
3. All notices of appeal shall be transmitted, either by the appealing party or by the district administration, to the secretary of the board. Oral notices, if made to the district administrator, shall be reduced to writing and communicated to the secretary of the board.
4. The district administrator, when notified of an appeal, shall promptly transmit to the Board a full written report of the facts relating to the suspension, the action taken by the administration, and the reasons for the action.
5. Upon receipt of a notice of appeal, the Board will schedule a hearing and within a reasonable time in advance of the scheduled date, will notify, by certified mail, the appealing party the date, time, a place of the hearing and of the right to counsel, to call witnesses, and to present evidence at the hearing.
6. Hearings of appealed suspensions will be conducted as described in the section of this policy dealing with student disciplinary hearings.

Suspension for More than 180 Days and Expulsions

Only the Board may expel a student or suspend a student for more than 180 days. The applicable procedures are outlined below.

1. Before recommending to the Board that a student should be expelled or suspended for more than 180 days, the administrator must: (a) tell the student, either orally or in writing, what misconduct he or she is accused of; (b) if the student denies the accusation, explain, either orally or in writing, the facts that form the basis of the proposed suspension/expulsion, and give the student an opportunity to present his or her version of the incident.
2. If the administrator concludes that the student has engaged in misconduct and should be expelled or suspended for more than 180 days, the procedures described apply unless the student is disabled. (In case of a disabled student, the procedures described in the policy dealing with the discipline of disabled children shall apply.)
3. The administrator will recommend to the Board that the student be expelled or suspended for more than 180 days. Also, the district administrator may suspend the student for 180 days. Also, the district administrator may suspend the student for 180 days immediately if he/she believes such action is in the best interest of the student or educational program.
4. Upon receipt of the administrator's recommendation, the Board will follow the procedures described in the section of this policy dealing with "Student Disciplinary Hearings".
5. If the student is expelled, he or she may later apply to the Board for readmission. Only the Board can readmit an expelled student.

Student Discipline Hearings

The Board of Education may originate student discipline hearings upon recommendation of the district administrator. In such cases, the Board of Education will review the district administrator's report and determine whether to conduct a disciplinary hearing. In addition, student discipline hearings also will be held upon written request of the student or the student's parents to consider appeals from student suspensions in excess of ten (10) school days. A discipline hearing will always be held in cases of suspensions in excess of 180 school days or expulsions, unless

after meeting with the superintendent or his/her designee, the parent or guardian waives, in writing, the right to an expulsion hearing.

In all hearings, whether initiated by the Board of Education or by appeal, the following procedures will be adhered to:

1. The student and the parents/ guardians will be advised of the charges against the student, their right to a Board Hearing; the date, time and place of the hearing; their right to counsel; and their procedural rights to call witnesses, enter exhibits and cross-examine adverse witnesses. All such notifications will be made by certified mail, addressed to the student's parents or guardians. The Board shall make a good-faith effort to have the parents or guardians present at the hearing.
2. Prior to the Board hearing, the student and the student's parents/guardians will be advised of the identity of the witnesses to be called by the administrator and advised of the nature of the testimony. In addition, the student and the student's parents/guardians will be provided with copies of the documents to be introduced at the hearing by the administration.
3. The hearing will be closed unless the Board decides otherwise. The hearing will only be open with parental consent. At the hearing, the administration or their counsel will present the charges and such testimony and evidence to support such charges. The student, his or her parents/guardians, or their counsel shall have the right to present witnesses, introduce exhibits, and to cross-examine witnesses called in support of the charges. A licensed court reporter may record the hearing and prepare a written transcript.
4. At the conclusion of the hearing, the Board of Education will deliberate in Executive Session and render a decision to dismiss the charges; suspend the student for a specified period of time, or expel the student from the schools of the district. The administration or its counsel, by direction of the Board, shall promptly prepare and transmit to the parents/guardians written notice of the decision. This shall include Findings of Fact and Conclusions of Law.

Readmission Conference

Prior to readmission or enrollment of any student who has been suspended out of school or expelled in accordance with this policy (i.e., Suspensions for More Than 180 Days and Expulsions), a conference must be held to review the student's conduct that resulted in the suspension or expulsion and any remedial actions needed to prevent future occurrences of such conduct or related conduct. The conference shall include the appropriate school officials including any teacher directly involved with the conduct which resulted in suspension or expulsion, the student, and the parent or guardian of the student or any agency having legal jurisdiction, care, custody, or control of the student. The Board of Education shall notify, in writing, the parents or guardians and all other parties of the time, place and agenda of any such conference. Failure of any party to attend this conference shall not preclude holding the conference.

Student Conduct on Buses

The safety of students during their transportation to and from school is a responsibility which they and their parents/guardians share with the bus drivers and school officials. When making changes in regular bus riding habits, parents must notify the office and/or the bus driver by phone or written message prior to the change. If students are riding to a friend's house, a note is requested for the change.

The School Discipline Code governs discipline on the bus and while waiting to load the school bus. There are also some specific guidelines that will help to ensure a safe ride.

- Students must cooperate and respect the bus driver.
- Students may be assigned a seat.
- Students shall remain seated at all times unless loading or unloading.
- No eating or drinking shall be permitted without the prior permission of the driver.
- Students shall keep all objects in the bus (no throwing objects in or out of the bus.)
- Students shall keep all parts of the body inside windows at all times.
- Students shall use normal speaking voices.
- Students shall keep the aisles free of feet, legs, or other objects.
- No pets or animals shall be brought on the bus without prior permission of the bus driver.
- Any activity, which worries or distracts the bus driver, must be stopped.

Bus Misconduct

Any offense committed by a student on a district-owned or contracted bus shall be punished in the same manner as if the offense had been committed at the student's assigned school. In addition to the discipline guidelines under the student code of conduct section, bus-riding privileges may be suspended or revoked in the following manner:

- First Write-up: Conference with the principal and/or notification of parents. The student develops a plan for correction of the concern.
- Second Write-up: Conference with the principal and/or notification of parents. The student will develop a plan for correction of concern and possible 2 days loss of bus privilege.
- Third Write-up: Conference with the principal and/or notification of parents. Students will develop a plan for correction of concern and loss of bus privilege for 2 days and up to a possible 30-day loss of privileges.
- Fourth Write-up: Permanent suspension of bus privilege. Students must appeal to the Board of Education for reinstatement of privileges.
- Loss of bus privileges will include all intra and extracurricular bus riding privileges.

Student Dress

A school is frequently judged as much by the appearance of its students as it is by the caliber of its academic programs. Pupils are encouraged to maintain a neat appearance at all times. All students must wear shoes, boots, or other types of footwear. Students should avoid extremes in clothing. Dress and grooming will not disrupt the educational environment. Examples of dress that might disrupt the educational environment include:

- Shirts or dresses that are backless, strapless or have only one strap. (All shirts must have straps that are at least one inch wide.)
- Sagging pants or shorts.
- Hats, headbands, and other headgear during meals and Pledge of Allegiance.
- Extremely short shorts, skirts, or dresses. Shorts, skirts, or dresses must be no shorter than 6 inches above the knee.
- Clothing that contains pictures, words, or symbols that are vulgar, sexually suggestive, or promote illegal activity.
- Clothing that does not appropriately cover the body or that reveals underwear.
- Poor hygiene (if present, nurse and/or administration may contact parent and/or guardian)

Additional dress regulations may be imposed upon students participating in certain extracurricular activities.

When a student's appearance or mode of dress does not comply with the above criteria, the student may be required to make modifications.

Student Participation in Secret Organizations & Gangs

The Board of Education prohibits membership in secret fraternities or sororities, or in other clubs or gangs not sponsored by established agencies or organizations recognized by the School District. The Board of Education feels that the presence of gangs and gang activities can cause a substantial disruption of or material interference with school and school activities. A "gang" as defined in this policy is any group of two or more persons whose purposes include the commission of illegal acts. By this policy the Board of Education acts to prohibit existence of gangs and gang activities as follows:

No student on or around school property or at any school activity:

- Shall wear, possess, use, distribute, display, or sell any clothing, jewelry, emblem, badge, symbol, insignia, or other things which are evidence of membership or affiliation in any gang.
- Shall commit any act or commission or use any speech either verbal or non-verbal (gestures, handshakes, etc.) showing membership or affiliation in a gang.
- Shall use any speech or commit any act or omission in furtherance of the interests of any gang or gang activity, including but not limited to:
 - Soliciting others for membership in any gangs.
 - Requesting any person to pay protection or otherwise intimidating or threatening any person.
 - Committing any other illegal act or other violation of School District policies.
 - Inciting other students to act with physical violence upon any other person.

Student Welfare and Student Safety

The district places a high priority on the safety of its students and employees. When a student or employee is the victim of a violent criminal offense, severe disciplinary consequences will be imposed. In addition and pursuant to the No Child Left Behind Act of 2001, student victims of a violent criminal offense that is committed on school premises will be offered transfer to another District school. To ensure awareness of this policy, the parents of student victims will be notified in writing of their right to a school transfer.

For purposes of this policy, a victim is a student who has suffered personal injury or injuries to his or her property as a direct result of a violent criminal offense. This definition does not include bystanders or witnesses to the act unless they suffered personal or property injury as a direct result of a violent criminal offense while on school premises.

The district will notify the Department of Elementary and Secondary Education (DESE) of all violent criminal offenses committed on school premises when the victim is a student or employee.

The district is a smoke free campus and also prohibits the presence of firearms and weapons by students, staff and community members.

Use of School Facilities by the Community

The District facilities are available for community use when facilities are not required for instructional or administrative purposes. Approval is subject to conditions established by the Board of Education as set forth in administrative regulations.

Notice of Designation of Directory Information

Dear Parents and Guardians:

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Miami R-1 School District, with certain exceptions, obtains your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, Miami R-1 School District may disclose appropriately designated “directory information” without written consent, unless you have advised the District to the contrary in accordance with District procedures. The primary purpose of directory information is to allow the Miami R-1 School District to include this type of information from your child’s educational records in certain school publications. Examples include:

- A playbill, showing your student’s role in a drama production
- The annual yearbook
- Honor roll or other recognition lists
- Graduation programs
- Sports activity sheets, such as for wrestling, showing weight and height of team members

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent’s prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent.

If you do not want Miami R-1 School to disclose directory information from your child’s educational records without your prior written consent, you must notify the District in writing by September 01, 2023. Miami R-1 School District has designated the following information as directory information:

Student’s name	Grade Level
Address	Participation in officially recognized activities and sports
Telephone listing	Weight and height of members of athletic teams

Prohibition Against Discrimination, Retaliation, & Harassment

The superintendent or designee will continuously publicize the district's policy prohibiting discrimination, harassment and retaliation and disseminate information on how to report discrimination, harassment and retaliation. Notification of the district's policy will be posted in a public area of each building used for instruction or employment or open to the public. Information will also be distributed annually to employees, parents/guardians and students as well as to newly enrolled students and newly hired employees. District bulletins, catalogs, application forms, recruitment material and the district's website will include a statement that the Miami R-1 Elementary School District does not discriminate in its programs, services, activities, facilities or with regard to employment. The district will provide information in alternative formats when necessary to accommodate persons with disabilities.

Reporting: Students, employees and others may attempt to resolve minor issues by addressing concerns directly to the person alleged to have violated this policy, but they are not expected or required to do so. Any attempts to voluntarily resolve a grievance will not delay the investigation once a report has been made to the district. Unless the concern is otherwise voluntarily resolved, all persons must report incidents that might constitute discrimination, harassment or retaliation directly to the compliance officer or acting compliance officer. All district employees will instruct all persons seeking to make a grievance to communicate directly with the compliance officer. Even if the suspected victim of discrimination, harassment or retaliation does not file a grievance, district employees are required to report to the compliance officer any observations, rumors or other information regarding actions prohibited by this policy. If a verbal grievance is made, the person will be asked to submit a written complaint to the compliance officer or acting compliance officer. If a person refuses or is unable to submit a written complaint, the compliance officer will summarize the verbal complaint in writing. A grievance is not needed for the district to take action upon finding a violation of law, district policy or district expectations. Even if a grievance is not directly filed, if the compliance officer otherwise learns about possible discrimination, harassment or retaliation, including violence, the district will conduct a prompt, impartial, adequate, reliable and thorough investigation to determine whether unlawful conduct occurred and will implement the appropriate interim measures if necessary. Student-on-Student Harassment: Building-level administrators are in a unique position to identify and address discrimination, harassment and retaliation between students, particularly when behaviors are reported through the normal disciplinary process and not through a grievance. Administrators have the ability to immediately discipline a student for prohibited behavior in accordance with the district's discipline policy. Administrators will report all incidents of discrimination, harassment and retaliation to the compliance officer and will direct the parent/guardian and student to the compliance officer for further assistance. The compliance officer may determine that the incident has been appropriately addressed or recommend additional action. When a grievance is filed, the investigation and complaint process detailed below will be used.

Investigation: The district will immediately investigate all grievances. All persons are required to cooperate fully in the investigation. The district compliance officer or other designated investigator may utilize an attorney or other professionals to conduct the investigation. In determining whether alleged conduct constitutes discrimination, harassment or retaliation, the district will consider the surrounding circumstances, the nature of the behavior, the relationships between the parties involved, past incidents, the context in which the alleged incidents occurred and all other relevant information. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances. If, after investigation, school officials determine that it is more likely than not (the preponderance of the evidence standard) that discrimination, harassment or other prohibited behavior has occurred, the district will take immediate corrective action.

Appendix B: Policies & Regulations

We follow Missouri School Board Association Policies and Procedures. These policies are available on the school's website and are complete with the index.

MSBA Policy JG

It is essential that the district maintain a classroom environment that allows teachers to communicate effectively with all students in the class and allows all students in the class to learn. To assist district staff in maintaining the necessary classroom environment, the Board of Education has created a discipline code that addresses the consequences, including suspension or expulsion, for students whose conduct is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of other students. The comprehensive written code of conduct of the district is composed of this policy and includes, but is not limited to, the following policies, procedures and regulations: JG-R1, JGA, JGB, JGD, JGE and JGF. A copy of the district's comprehensive written code of conduct will be distributed to every student and the parents/guardians of every student at the beginning of each school year and will be available in the superintendent's office during normal business hours.

Health Services

The Board of Education believes that in order to provide for the safety and well-being of its students, it is necessary to implement and maintain a District-wide student health services program. The health service staff will be responsible to their building principal and may also be responsible to a designated District administrator.

The District will be responsible for providing first aid or emergency treatment for students in cases of sudden illness or injury. Where necessary, and with notice to the parent/guardian, emergency health services will be secured. The parent/guardian is responsible for their child's medical treatment.

MSBA Policy IL

Students will participate in mandatory assessments (MAP testing beginning in third grade and End of Course exams for eighth graders).

**Network & Internet
Acceptable Use Policy Agreement
Miami R-1**

The technology mission of the Miami R-1 School Network is to provide appropriate up-to-date technologies that will offer vast, diverse, and unique resources to students, teachers, and staff. We are pleased to offer access to the district computer network for project storage and the Internet. To gain individual access to the network, the district's technology resources and the Internet, all students must obtain parental permission and must sign and return this form to the school.

Network & Internet Guidelines

Miami R-1 School District's purpose in providing access to the Internet is to support research and education by providing access to unique resources. The use of the account must be in support of education and research and consistent with the educational objectives of the school district. Sending or receiving of any material in violation of any U.S. or state regulation is prohibited.

Along with access to computers and people all over the world comes the availability of material that may not be considered of educational value in a school setting. Adult supervision is required at all times for computer use and internet content filtering. However, on a global network it is impossible to control all materials. The Miami R-1 School will teach students about responsible use and inform them of their rights and responsibilities as users of the district's network prior to gaining access to the network, either as an individual user or as a member of a class or group.

Users: Individual users of the Miami R-1 School computer network are responsible for their behavior and communications over the network. It is presumed that users will comply with district standards and will honor the agreements they have signed. The following guidelines are provided so everyone is aware of the responsibilities that come with using the Network and Internet. If a Miami R-1 user violates any of these provisions, his or her account will be terminated and future access could be denied.

A. Student Users

No student will be given "privileged" access to the district's technology resources until the district receives an *Acceptable Use Policy agreement* signed by the student and the student's parent(s), guardian(s), or person standing in the place of a parent.

B. Employee Users

No employee will be given "privileged" access to the district's technology resources until the district receives an *Acceptable Use Policy agreement* signed by the employee.

C. External Users

Substitute teachers, consultants, independent contractors, and other persons having professional business with this school district may also be granted user privileges at the discretion of the Superintendent or Technology Coordinator, subject to completion of an AUP *agreement* and for the sole, limited purpose of conducting business with the school.

Damages: All damages incurred by the district due to the misuse of the district's technology resources, including the loss of property and staff time may be charged to the user, as determined by district administrators.
